PROFESSIONAL SUMMARY

Fifth-year Informatics Engineering student at Homs University (expected graduation 2027), specializing in front-end development with React, Next.js, and Tailwind CSS. I build responsive, user-focused web applications with clean, reusable components, and collaborate through Git and GitHub. Seeking an internship or junior front-end role to apply and grow my skills within a team.

PROJECTS

Personal Portfolio Website | Next.js, Tailwind CSS, Motion
Live: adnan-altellawy.netlify.app | Code: github.com/Adnan-AlTellawy/portfolio

- Responsive personal website showcasing my projects, services, and contact details, with light and dark modes and smooth image and text animations using the Motion library.
- Contact form and responsive navigation across mobile and desktop; deployed on Netlify.

Weather Pro: Weather Web App | Next.js, Tailwind CSS, Framer Motion, OpenWeatherMap API
Live: adnan-weather-pro.netlify.app | Code: github.com/Adnan-AlTellawy/weather-pro

- Weather app showing current temperature, wind, and humidity plus a multi-day forecast, with city search powered by data fetched from the OpenWeatherMap API.
- Handles loading states and errors such as unknown cities; Arabic and English interface that remembers user settings.

Food Del: Food Ordering App | React
Live: restaurant-app-adnan.netlify.app | Code: github.com/Adnan-AlTellawy/restaurant-app

- End-to-end ordering flow from menu browsing to checkout and order tracking, with category filtering and a cart that calculates quantities and totals automatically.
- Login, checkout, and order-tracking screens; state managed with React Hooks; responsive and deployed on Netlify.

Resume Builder | React
Live: resume-builder-24.netlify.app | Code: github.com/Adnan-AlTellawy/resume-builder

- Web app for creating a professional resume in minutes, with live preview while typing and multiple selectable templates.
- PDF download and saved user data between sessions.

QuickCart: Tech E-Commerce Store | Next.js, Tailwind CSS, Context API
Live: store-app-adnan.netlify.app | Code: github.com/Adnan-AlTellawy/e-commerce-store

- Adapted and deployed an open-source Next.js storefront template (QuickCart by GreatStack, MIT license) with an animated promotional slider, shop page, product detail pages, and a seller portal.
- Worked with its Context API cart state and responsive Tailwind CSS component structure.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries: React, Next.js, Tailwind CSS, Motion
Graphics: HTML Canvas
APIs: Consuming external APIs, API testing with Postman
Tools: Git, GitHub, Netlify
Concepts: Responsive Design, Component-Based Architecture, State Management (Hooks, Context API)

EDUCATION

B.Sc. in Informatics Engineering, Software & Information Systems
Homs University, Syria | 2022 – 2027 (Expected)
